Professional Summary

Full-stack software engineer with 3+ years of experience building and maintaining web applications, REST APIs, and internal tools. Strong background in Laravel/Vue and C#/.NET + Angular, with additional Java experience. I focus on performance, maintainability, and cost-efficient scalability by strengthening architecture, reducing complexity, and improving reliability in existing systems.

Relevant Experience

REDELOCKER — Full-Stack Developer | Montevideo, Uruguay
Nov 2022 – Mar 2025

- Developed, tested, and delivered new features for the company's logistics platform (app.redelocker.com).
- Improved code quality and maintainability across back-end and front-end codebases by applying best practices (refactoring, code reviews, testing).
- Engineered a Warehouse Management System (WMS) mobile application in Java for a UK-based client under tight deadlines.
- Worked with Laravel, Vue.js, Nuxt.js, and MySQL; used Jira, Bitbucket, and Postman; integrated internal systems using AWS (S3) services.

Education

- **Universidad ORT Uruguay** — B.S. in Computer Science (in progress) | Montevideo, Uruguay
Mar 2022 – Present
- **Cambridge English** — C1 Advanced (Certificate in Advanced English) — Score 197/200 | Mercedes, Uruguay
Dec 2021

Projects

- **ValorDolarUY (X/Twitter bot)** — Python + AWS Lambda bot that automatically posts USD exchange rates for Latin American countries every 30 minutes, using public FX APIs (OpenExchangeRates, Bluelytics); 11,000+ automated posts; 170+ followers.
- **iStockUY (e-commerce platform)** — Built istockuy.com plus an admin panel (admin.istockuy.com) and a comprehensive REST API; implemented with Next.js, Chakra UI, Tailwind CSS; used Postman for API testing.
- **Personal website (joaquinborges.me)** — Portfolio website built with React/Next.js, Chakra UI, and Tailwind CSS.
- **Flutter mobile app** — Mobile application built with Flutter (inspired by CODMunity).
- **albertoborio.me** — Static website built with HTML, CSS, and JavaScript.

Technical Skills

- Languages: Java, C#, Python, JavaScript and TypeScript

- Frameworks/Libraries: Laravel, .NET, Angular, Vue.js, Next.js, Tailwind CSS
- Databases: MySQL
- Cloud: AWS, GCP
- Tools: Git, Jira, Bitbucket, Postman, Figma, Notion

Additional

- Languages: Spanish (Native), English (C1 Advanced).
